1. Table of Contents

- ATHENA Interoperability Framework _____ *site*
  - Introduction _____ *introduction*
    - Welcome _____ *index*
    - Background and motivation _____ *index*
    - Overview of the AIF _____ *index*
    - Specification of the AIF _____ *index*
    - References _____ *index*
    - Whole site HTML _____ *whole_site_html*
    - Whole site PDF _____ *whole_site_pdf*
  - Reference architecture _____ *reference*
    - Introduction _____ *index*
    - Interoperability reference architecture _____ *index*
    - Interoperability classification _____ *index*
  - Interoperability methodology _____ *methodology*
    - Introduction _____ *index*
    - Baseline interoperability methodology _____ *index*
    - Business interoperability framework (BIF) _____ *index*
    - Enterprise interoperability maturity model (EIMM) _____ *index*
    - Interoperability analysis _____ *index*
    - Requirements - solution mapping _____ *index*
    - Testing methodology _____ *index*
    - Implementation _____ *index*
    - Interoperability impact analysis method (IIAM) _____ *index*
  - Guidelines and best practices _____ *guidelines*
    - Introduction _____ *index*

- Collaborative enterprise modelling _____ *index*
- Cross-organisational business processes _____ *index*
- Flexible execution and composition of services _____ *index*
- Information interoperability _____ *index*
- Semantics and ontologies _____ *index*
- Model-driven interoperability _____ *index*

- Technical architecture _____ *technical*
  - Introduction _____ *index*
  - Collaborative enterprise modelling _____ *index*
  - Cross-organisational business processes _____ *index*
  - Flexible execution and composition of services _____ *index*
  - Information interoperability _____ *index*
  - Semantics and ontologies _____ *index*
  - Model-driven interoperability _____ *index*
- Interoperability profiles _____ *profiles*
  - Introduction _____ *index*
  - Guidelines for interoperability profiles _____ *index*
  - Collaborative product development (CPD) profile _____ *index*
  - Networked collaborative product development (NCPD) profile _____ *index*
  - Electronic procurement (e-Procurement) profile _____ *index*
  - Product portfolio management (PPM) profile _____ *index*
- ATHENA solutions _____ *solutions*
  - Overview _____ *index*
  - Composite solutions _____ *subdir*

- ATHENA Interoperability Framework (AIF) _____ *index*
- ATHENA Interoperability Project Support Suite _____ *index*
- ATHENA Model-Driven Interoperability (MDI) Framework _____ *index*
- ATHENA Modelling Tool Suite for Eclipse/RSM _____ *index*
- ATHENA Semantic Reconciliation Suite _____ *index*
- Service-Oriented Interoperability (SOI) Framework _____ *index*

- Individual solutions _____ *subdir*
  - A* _____ *index*
  - Active knowledge model (AKM) execution platform _____ *index*
  - Active object flow (AOF) methodology _____ *index*
  - Agent-based computing platform _____ *index*
  - Autonomous computing engineering reference guide _____ *index*
  - ARES _____ *index*
  - ARIS (Architecture of Integrated Information Systems) _____ *index*
  - ARGOS _____ *index*
  - Assert _____ *index*
  - ATHENA Event and Document Correlation (AEDoC) _____ *index*
  - ATHOS _____ *index*
  - BPEL Metamodel Feature for Eclipse _____ *index*
  - Business Issues Planner (BIP) _____ *index*
  - Business Resource Management Framework

(BRMF) _____ *index*

- Capability Tables Loader _____ *index*
- Conformance testing suite _____ *index*
- EKA Metamodel Feature for Eclipse _____ *index*
- EKA to PIM4SOA Transformation Feature for Eclipse _____ *index*
- Enterprise Interoperability Degree Measurement (EIDM) _____ *index*
- Enterprise Interoperability Maturity Model (EIMM) _____ *index*
- Enterprise Interoperability Maturity Model for SMEs (EIMM-SME) _____ *index*
- EXP2PIM4SOA _____ *index*
- EXP2SCH _____ *index*
- EXP2UML _____ *index*
- EXP2XMI _____ *index*
- EXP2XSD _____ *index*
- Gabriel _____ *index*
- Gap Table Analyser _____ *index*
- GRAI Methodology _____ *index*
- GraiTools _____ *index*
- Jack _____ *index*
- Johnson _____ *index*
- Maestro _____ *index*
- Mediated Support Tool _____ *index*
- Metis _____ *index*
- Model-driven integration of JACK and Web services _____ *index*
- MOF repository _____ *index*
- MO2GO (Method for Object Oriented Business Process Optimization) _____ *index*
- Monitoring Support Tool

index

- MPCE (Modelling Platform for Collaborative Enterprises) _____ *index*
- Nehemiah _____ *index*
- OPAL _____ *index*
- PIM4SOA _____ *index*
- PIM4SOA Execution and Simulation Platform _____ *index*
- PIM4SOA Metamodel Feature for Eclipse _____ *index*
- PIM4SOA to BPEL Transformation Feature for Eclipse _____ *index*
- PIM4SOA to JACK model transformation _____ *index*
- PIM4SOA to OWL-S model transformation _____ *index*
- PIM4SOA to Web services Model Transformations _____ *index*
- PIM4SOA to WSDL Transformation Feature for Eclipse _____ *index*
- PIM4SOA to XSD Transformation Feature for Eclipse _____ *index*
- POP* language interchange format and methodology _____ *index*
- RSM _____ *index*
- Semantic support for service descriptions _____ *index*
- Semaphore - UML semantic mapping tool _____ *index*
- SOAP feedback analyser _____ *index*
- THEMIS _____ *index*
- WSDL analyzer _____ *index*

- Demonstrators _____ *subdir*
  - Overview _____ *index*
